ABOUT

Hello, I'm Carla, a former ESL instructor who has transitioned into the realm of web/software development. I enjoy unique design perspectives, brainstorming ideas, and learning new programming concepts. I offer passion, creativity, and a desire to grow as a developer.

FEATURED PROJECTS

WRITEIT
August 2017

- Repository: https://github.com/csevere/writeIt-react-express
- The Tech: JavaScript | JSX | React | Redux | MySQL
- WriteIT is a productivity tool for writers, offering a variety of ways to organize, structure, and plan manuscripts. It also incorporates a social networking feature that allows writers to share their work and receive or give feedback; aka, facebook for writers.

ALIEN BATTLECRAFT
July 2017

- Live site: http://alienbattlecraft.carlasevere.com/alien-game/
- Repository: https://github.com/csevere/alien-game
- The Tech: JavaScript | JSX | React
- An interactive dice game in which players must fight aliens that have invaded their spacecraft. Winning requires some strategy and good luck.

PICTO-CHAT
July 2017

- Repository: https://github.com/csevere/picto-chat
- The Tech: HTML | CSS | Bootstrap | JavaScript | Node.js | Express | Socket.io
- A pictionary game combined with a chat feature
